Definitions of Critical and Non-Critical Violations

- Major Critical Violation:** A violation that poses an imminent risk to public health and requires immediate correction. It may also warrant immediate closure of the facility
- Minor Critical Violation:** A violation that is directly related to a potential cause of foodborne illness and requires immediate correction.
- Non Critical Violation:** A violation that does not pose an imminent public health risk but does require correction, usually by the next inspection or by a compliance schedule. It is related to the facility's sanitation, design or maintenance. Examples include: Unsanitary floors, walls or equipment; equipment in need of repair; inadequate garbage containers.
