### **GUIDELINES FOR CHOOSING AND PLACING A MOORING BUOY**

A Lakebed Administrative Encroachment Permit must be obtained for a Mooring Buoy. There is a permit fee of \$50, and an Annual Lease Fee.

#### **BUOYS:**

- ◆ Use U. S. Coast Guard approved buoy such as Rolyan or Caljune.
- ◆ Label the buoy with your name and phone number so it can be returned should the buoy become detached.

#### **PLACEMENT:**

- ◆ Lakefront property owners may place 1 mooring buoy per parcel.
- ◆ Lower the anchor to the bottom with anchor chain.
- ◆ After the anchor reaches the bottom, allow enough additional anchor chain for high lake level of +12 feet Rumsey (i.e. if the lake is at zero Rumsey, allow an additional 12 feet; if the lake is at +4 feet Rumsey, allow an additional 8 feet, etc.). This will allow the lake to rise without sinking the buoy or pulling the anchor.
